Been thru some crazy shit
All me come take a hit
Come skip this waiting list
This waiting list this waiting list
Romantic private trips
Roll up that limo tent
Smoke outs inside the whip
Inside the whip inside the whip

I feel like a young iverson
They be like damn he high again
At least we don't sell lies to them
Off Dr Sebi vitamins
We puff thru the storms
It keep me cool and calm
But we don't jump in pools they drowning in
A brand new man was born
We don't do the norm
You must of been misinformed
If it don't hit then we gone try again
Presidential treatment
That's just how it's gotta be
The only wood she fucking wit is mine
But she like grabba leafs
She say she proud of me
And obviously, me and you
