

# Wake Up

Dizzy Wright

Talk to them  
Wake up everybody, wake up everybody  
I hope my voice, I hope my lyrics  
Wake up everybody, wake up everybody  
Man I hope that I, come up  
Wake up everybody, wake up everybody  
I hope my voice, I hope my lyrics  
Wake up everybody, wake up everybody  
Man I hope that I, come up

In the streets I was always running in and out  
In the drought tryna find a way to stick it out  
I was bout the money never really in the house  
Quick learner and observer who had it figured out  
Fuck it, I'm a get this world upon this dizzy shit  
Smoke weed and teach niggas about the willie lynch  
I will never turn my game off  
Annoyed and we brain washed  
Mind getting fucked by a chainsaw  
I seen the future in my home girl  
Went into her own world and got a little nigga  
2 years later, 18 with a baby and a baby on the way  
And that nigga is out the picture  
God damn I don't get ya  
Settle as the victim, it ain't about abortion  
It's about better decisions  
Pretending to be happy, angry with the way you living  
Got me tripping  
I just pray to God the power in my motherfucker lyrics  
sing

Wake up everybody, wake up everybody  
I hope my voice, I hope my lyrics  
Wake up everybody, wake up everybody  
Man I hope that I, could, talk to them  
Wake up everybody, wake up everybody  
I hope my voice, I hope my lyrics  
Wake up everybody, wake up everybody  
Man I hope that I, could, come up

Ah, the whole world seems commercial  
We all off, the whole world need rehearsal  
Women getting verbal, getting more into women  
Becoming distant, focus on independent  
It ain't try to tell me, it ain't what it seem  
My mama's vision seem to turn into my dream  
And it's crazy cause bitches throwing they pussies  
Not knowing I hate barbies, I've been searching for a  
queen  
Black raised with panther soul, I got a voice but I  
ain't stupid  
21 years and I finally met my daddy  
Just to find out he a gangster like Frank Lucas  
And I love it  
And not so I can brag, but it's finally helping me  
understand  
Who I'm becoming

I've been running from a lot  
And I finally got my shot to be exposed  
To enough to make them watch  
I hope my music can motherfucking

Wake up everybody, wake up everybody  
I hope my voice, I hope my lyrics  
Wake up everybody, wake up everybody  
Man I hope that I, could, talk to them  
Wake up everybody, wake up everybody  
I know my voice, I know my lyrics  
Wake up everybody, wake up everybody  
Man I hope that I, could, come up

Ah, I know what you prolly thinking  
This young nigga spit lyrics with the meaning  
Waking up niggas while they sleeping  
I'm rude, it's the wound of mine  
That you hear speaking  
Told them if I ever got the chance, I would  
They ain't believe me until I showed them that I could  
My mom good, I know you want me to stay safe  
But I'm teaching my generation how to learn from all  
they mistakes  
I found something I'm good at  
And I'm proud of me, a young black man  
That turned the planet into a prodigy  
Our society fucked, but I don't mean to fuss  
Or trying to start shit, but look at what they feeding  
us  
But it's cool my nigga, cause you got swag, huh  
And bitch you don't care, cause you just got that bag,  
huh  
They killing us in this what we call living life  
Seems like niggas left it up to dizzy right, so I'm a

Wake up everybody, wake up everybody  
I hope my voice, I hope my lyrics  
Wake up everybody, wake up everybody  
Man I hope that I, could, talk to them  
Wake up everybody, wake up everybody  
I hope my voice, I hope my lyrics  
Wake up everybody, wake up everybody  
Man I hope that I, could, come up
