

# When The Hate Come

Dizzy Wright

Yo, life is just like chess, you can't play dumb  
But keep playing ya part until ya day come  
Gotta get back to work, soon as ya break done  
Soon as you doin' summin', right, that's when the hate come

Soon as you doin' summin', right, that's when the hate come

Yo, don't compare me to my first week ticket sales  
If the fans determine yo' worth, then you really failed  
I'm doing what I love, I could be sittin' in a shell  
They hype you up to live a life until you in a cell  
Keep us distracted from what's really going on  
Now we stuck in the phones, it's curated and openly wrong  
It's givin' chronic agitation without playin' the victim  
Gotta watch ya back every time you wit' 'em  
Fooled me once but you won't fool me twice

Yo, life is just like chess, you can't play dumb  
But keep playing ya part until ya day come  
Gotta get back to work, soon as ya break done  
Soon as you doin' summin', right, that's when the hate come

Soon as you doin' summin', right, that's when the hate come

Peace, king, I striked out, I'm back to re-swing  
Manifested, now my haters complain to my street team  
Can't reach me, I'm turnin' parties into freak scenes  
Had to raise the standards, so I gave Mike and Keys a ring  
To each his own, they sleep, but won't be 'sleep for long  
The leaders you follow, we don't like what they leanin' on  
We don't sip the tea  
Miss me wit' all of the gossip, that's a godly fee  
Possibly, I might even listen to what you offer me, I know the rule

Yo, life is just like chess, you can't play dumb  
But keep playing ya part until ya day come  
Gotta get back to work, soon as ya break done  
Soon as you doin' summin', right, that's when the hate come

Soon as you doin' summin', right, that's when the hate come

Yo, loyalty over relevance  
The success that I expect, I can't measure it  
Sometimes I sit and reflect, it's too devilish  
Still movin' delicate, check the development  
I know better, now, huh, ho niggas gon' help them hold niggas down  
They say don't educate, just put a hole in they crown  
Motivated from the days my phone wouldn't dial  
Check me out now  
The Wright one wit' a king disease, like God's son

Yo, life is just like chess, you can't play dumb  
But keep playing ya part until ya day come  
Gotta get back to work, soon as ya break done  
Soon as you doin' summin', right, that's when the hate come
