

Willing & Ready

Dizzy Wright

I never folded if you haven't noticed
I'm deeply coated
Know about all them bodies that floated
That shit bogus sickness from all the motion
Waves from the ocean
Took it for granted now he back and devoted and focused
Believe him this time cause we all fall when we shine
Success for yo ass now get yo ass up and get back in line
The moneys confirm
That ambience will change when you make that obvious turn
Not a lotta bridges to burn
We don't trip about the shit that's as small as a gummi worm
What can not be controlled is prolly not your concern
Moving on wherever my throat chakras belong
Becoming the sample they example is copying songs
Not my approach
They gon' be in and out the door 'fore I'm done wit my roach
Some players can not be coached
Good anywhere I go I knew the shit would happen fast
That's why I took some time to make it last

I'm willing and ready
I'm willing and ready
I'm willing and ready
I'm willing and ready
I'm willing and

Never confronted but they fronted
Try one up you when you living the life that they wanted
99% of the time they don't keep it a hundred
Nothing to talk about 'til you end up in the discussion
Pointless to think I'm better than things that's not in my view
I'm competing wit me myself and I and so should you
But you consumed by the social news and local views
A open book but it's chapters that won't be there when you start scro
llin' thru
I tried to tell 'em gotta watch what you say when you know what they
tryna sell 'em
Overzealous demeanor don't really come off compellin'
Pick apart everything but the truth that's the truth of matter
Know ya role or the real war is ya own battles
Mistakes we make they rather see you breakdown before you catch a bre
ak
That extra weight gon' have to wait we at the Mandalay
They say yo eyes don't tell no lies that's what the camera say

I'm willing and ready
I'm willing and ready
I'm willing and ready
I'm willing and ready
I'm willing and
