

## Wisdom and Good Vibes

Dizzy Wright

Wisdom's better than silver and gold  
So you better take these good vibes with you and go hit that road  
[?] the hardest things in the world to do was let go  
But if you knew then what you know now  
You probably would've taken things slow  
I know  
You are the universe  
You deserve the universe  
I know, I know  
You are the universe  
Yes, you deserve the universe  
Don't let 'em change your mind  
You are the universe  
You deserve the universe  
Go let the whole world know  
I'm back, I'm better baby
