

World Spinnin

Dizzy Wright

Gotta love you life and find the peace in it
For every challenge man you gotta find the peace in it
The only way we can survive is finding peace in it
One thing I know the world keeps spinning
One thing I know (the world)
One thing I know (the world keeps spinning)
One thing I know (the world)
One thing I know (the world keeps spinning)

I say fuck it my troubles is now behind me
I can't let these problems define me I know that I'm godly
I made some mistakes some other niggas made and they outtie
Any day it could be you because best believe the bottoms crowdie
I'm going through classes to dump the ashes before I pass it
Life ain't slowing down for you I promise that's thinking backwards
I don't even wake and bake no more I wake up and get active
Right after I accomplish something I'd be smoking after
Don't got nothing to prove this just positive affirmations
Don't focus on the news I'm here to say don't tolerate it
And don't be around nobody that can't hold no conversation
And if he ain't been working there's no reason to be faded
You gotta find peace in all this shit if you gon' make it
You gotta have some discipline for shit that you been craving
This shit don't get no easier what cycles you been breaking
What type of God you playing I'm just saying
Nigga quit playing

Gotta love you life and find the peace in it
For every challenge man you gotta find the peace in it
The only way we can survive is finding peace in it
One thing I know the world keeps spinning
One thing I know (the world)
One thing I know (the world keeps spinning)
One thing I know (the world)
One thing I know (the world keeps spinning)

It's the fast life
And they be selling half price
Got my hands tied sometimes I feel I can't fight
I be loosing grip this a landslide
Police want us put our hands high wonder why I'm anti shit
I ain't got the answers
Streets will romance ya
And bad news be spreading online like cancer
Brand new Range Rover yeah I keep the peace in it
Time keep slipping off the clock I'm watching each minute
I need real love can you make me feel some
100 miles in for the win I'ma still run
Believe faithfully covered in a to z
Used to have a place to be
Now it's no vacancy
Made for the major league
Manifest reality
Count what you ingest on my set like calories
When you in need you can count on me
Always secure your inner peace make that guarantee

Gotta love you life and find the peace in it
For every challenge man you gotta find the peace in it
The only way we can survive is finding peace in it
One thing I know the world keeps spinning
One thing I know (the world)
One thing I know (the world keeps spinning)
One thing I know (the world)
One thing I know (the world keeps spinning)
