You Get What You See

Dizzy Wright

Finally out of here
They know me as an independent pioneer
Without the hype they ignored me like the cavaliers
The whole package you can tell that he don't have a pair
I'm tryna turn my hard work into a platinum year
I had to make some changes, switch up the atmosphere
I'm playing chess but I'm guessing that's not how that appears
Some people disappeared when nothing was happening here
And I remember it all

Nobody's gonna do it for ya
What you see is what you get
Nobody's gonna do it for ya
What you see is what you get
Nobody's gonna do it for ya
What you see is what you get
Nobody's gonna do it for ya
What you see what you see

A real one a1 day one
Follow no leads if it's wrong I'ma say sum'n
If you making money right now better save some
I feel like an old soul tryna stay young
Who you waiting on? This a partnership playa we don't play along
The ladies love you when they know the money nia long
Frequently the frequencies would keep it repeatedly on
Get in your zone

Nobody's gonna do it for ya
What you see is what you get
Nobody's gonna do it for ya
What you see is what you get
Nobody's gonna do it for ya
What you see is what you get
Nobody's gonna do it for ya
What you see what you see

Crazy how turned into the big homie off wax
You can see it's in me not on me fall back
Say she got love for me but it could be all cap
Tryna do it big in this big ass still movin' hat
Made my first M and got taxed
Before it was legal I came up off them packs
Vibrating low I can't be around that
Higher up I gotta be where my energy is match
This why

Nobody's gonna do it for ya
What you see is what you get
Nobody's gonna do it for ya
What you see is what you get
Nobody's gonna do it for ya
What you see is what you get
Nobody's gonna do it for ya
What you see what you see

Nobody's gonna do it for ya

```
What you see is what you get
Nobody's gonna do it for ya
What you see is what you get
Nobody's gonna do it for ya
What you see is what you get
Nobody's gonna do it for ya
What you see what you see
```
