

ZipLoc

Dizzy Wright

(Ooh, DJ Hoppa)

My ZipLoc to the tip top
White socks with the flip flops
Smoke first then we take shots
Tick tock, and it don't stop
My ZipLoc to the tip top
White socks with the flip flops
Smoke first then we take shots
Tick tock, and it don't stop

High shorts, white socks
Cortez, dreadlocks
Working all day to make your head bop
Knocking down strikes at the Red Rocks
Nigga got his own weed strain for real
We still moving up the hill
Guaranteed niggas gon' grind
I want it all, a car deal
Treated me like I'm legendary status
I'm still a nigga, not the nigga that had it
Smoking on a helicopter
I got the juice and I do it like [?]
They won't get it til they see me on Fallen
Niggas know weed for me is a necessity
They say I'm droppin' jams, that's way ahead of me
I apply pressure, no overreaction

My ZipLoc to the tip top
White socks with the flip flops
Smoke first then we take shots
Tick tock, and it don't stop
My ZipLoc to the tip top
White socks with the flip flops
Smoke first then we take shots
Tick tock, and it don't stop

Summertime vibe, [?] flying high
Following the sign, clear my mind
Always on the grind, all comes in time
With the low eyes I still see the prize
On the couch binge watching CSI
All these blessings, know there gotta be a God
Legalize like the legend Peter Dodge
'Cause it ain't legal til the day they free us all
Family barbecues, you know that we evolve
All the homies smoking out the whole garage
How you get [?] shit is flames
I know the growers that own the farms
Type of fire set off smoke alarms
Switch my connect 'cause they overcharge
Now I'm connected with open arms
The plug with the flavors, they for us all

My ZipLoc to the tip top
White socks with the flip flops
Smoke first then we take shots

Tick tock, and it don't stop
My ZipLoc to the tip top
White socks with the flip flops
Smoke first then we take shots
Tick tock, and it don't stop

(But it's-it's a medicine. Always remember it's medicine. You know, it's not to just get high and write songs, you know. It's to get high and be a doctor, be a lawyer, be a dentist, be a writer, be a student. You know, being creative. 'Cause that's what we need)
