

Dancing in the Headlights

DJ Antoine

She sat beside me on a train
She said her name
And I was so gone (so gone)
We waved goodbye to city lights
Into the night
And we said so long (so long)
We picked a stop
And we got off
We found a car
And we got lost
Somewhere between wrong and right
Pulled to the side along the road
We turned up the radio
I fell in love with her that night

Dancing in the headlights
We burned just like the sun
Dancing in the headlights
We were forever young
And we were singing

Dancing in the headlights
Dancing in the headlights
Dancing in the headlights
Dancing in the headlights

She took my heart
And moved her feet
To the beat
And I was so gone (so gone)
I took ahead
We found a cab
Right on the street
And I said drive on (drive on)
I ran my fingers through her hair
I told the driver anywhere
Just as long as I'm with her (just as long as I am)
Turn off the lights
We hit the road
And I turned up the radio
And we forgot about where we are

Dancing in the headlights
We burned just like the sun
Dancing in the headlights
We were forever young
And we were singing

Dancing in the headlights
Dancing in the headlights
Dancing in the headlights
Dancing in the headlights
