I called your name
Searched for your flame
A smile between all these strangers
Can't understand
Words in the sand
I'll never stop burning for ya

And nothing secret here
Love's trapped under veneer
My heart is rusted steel
And nothing secret here

Is there anyone out there
Cause all I hear is echo
Is anyone out there
Cause all my fear is the echo
Echo

Deep in the night
I lit a fire
Hoping that you'd see the sign
And all my senses tell me you're close
And I can't give up now

And nothing secret here
Love's trapped under veneer
My heart is rusted steel
And nothing secret here

Is there anyone out there
Cause all I hear is echo
Is anyone out there
Cause all my fear is the echo
Echo

Love's trapped under veneer
Is there anyone out there

Is there anyone out there
Cause all I hear is echo
Is anyone out there
Cause all my fear is the echo
