Explode

DJ Antoine

Got a feeling coming
Something to move us
Towards the right way
The fire inside growing
Only a matter of time
Before it takes place

So don't let go
Baby we're so close
Light the spark
We'll leave the flame exposed
Shine the light
And let them know we're home
We're home

Cause the night belongs to you
Nad me baby
Do it big so everyone
Can see when we
Explode ,explode , explode
Hey , let them watch
And want what we have baby
So amazed by what
They can see when we
Explode , explode , explode
