

# Explode

DJ Antoine

Got a feeling coming  
Something to move us  
Towards the right way  
The fire inside growing  
Only a matter of time  
Before it takes place

So don't let go  
Baby we're so close  
Light the spark  
We'll leave the flame exposed  
Shine the light  
And let them know we're home  
We're home

Cause the night belongs to you  
Nad me baby  
Do it big so everyone  
Can see when we  
Explode ,explode , explode  
Hey , let them watch  
And want what we have baby  
So amazed by what  
They can see when we  
Explode , explode , explode
