

# Go with Your Heart

DJ Antoine

Let's go out  
Turn it up and roll the windows down  
Yeah we like our music  
So damn loud  
We'll be shaking the ground  
Are you feeling it now, now, now

All my people where you at  
All my people where you at  
Where you at  
Where you at

Moving up the speed of light  
Shooting stars across the sky  
Yeah you only get one life  
You've gotta go with your heart  
Go with your heart tonight

Praise them up  
To the ceiling we gonna rock this club  
Baby believe it  
When you party with us  
You'll be feelin a buzz  
You'll be falling in love

Hol' up  
I don't wanna  
Just go falling  
And falling  
In love  
Girl I could hear  
Ya heart calling  
And calling  
Pick up  
Now they might've did  
A lil' partying  
But not partying this much  
Girl there ain't  
Stopping this  
Ain't no stalling  
Now drinks up  
Now maybe  
They won't  
Ever feel this feel  
Like were' in a dream  
But it's real  
Even though  
We're standing still  
We're still...

Moving up the speed of light  
Shooting stars across the sky  
Yeah you only get one life  
You've gotta go with your heart  
Go with your heart tonight

Do what you feel like

Just do what feels right  
Do what you feel like  
Just go with your heart tonight

All my people where you at  
Where you at  
All my people where you at  
Where you at  
All my people where you at  
Where you at  
All my people where you at  
Where you at

Moving up the speed of light  
Shooting stars across the sky  
Yeah you only get one life  
You've gotta go with your heart  
Go with your heart tonight

Do what you feel like  
Just do what feels right  
Do what you feel like  
Just go with your heart tonight
