

Paradise

DJ Antoine

When I want to lose my mind
I always keep you in mind
'Cause you don't slow down, green light
When I'm caught up in cheap thrills
The whole world stands still
I run to you, green light

We don't care where you come from
Long as you dream about the high life
Drinks on us tonight
We can't slow, green light

I wanna dance till the sun's in the pool
Let's make the tab big, be the king of the ball
And if we drink till our hearts hit the floor
We'll be in paradise
Bikini shot glasses, champagne Chanel shades
We feel the same way cause we're all on the chase
And if we drink till our hearts hit the floor
We'll be in paradise

When I want touch the sky
I always keep you in mind
'Cause you don't slow down, green light
And when I'm caught up in cheap thrills
The whole world stands still
I run to you, green light

We don't care where you come from
Long as you dream about the high life
Drinks on us tonight
