

Stuck on U

DJ Antoine

Rush
Mr. Worldwide
You can catch me in Russia
At a billionaire's night
No I never rush 'em
But I get what I like
Baby no Russian
Imma tell you what I want

I don't know how to feel
All I know is what my heart is telling me
I want us to be real
We can take it slow
I just want you here with me

Cause I've been thinking about you all day
Girl, I just want you want me
Come close to me
I need your body
I'm not sorry

But I'm still stuck on you
I'm still stuck on you
Ooh, Ooh

They say nothing forever
But when you're with me you know
Imma love you forever
Cause you were there
Thick, thin, lose, wind, up, down to help me out
I remember the days
No one believe you in the air
Help 'em believe you with the eyes
Help 'em to see
That's why forever baby you and me

Cause I've been thinking about you all day
Girl, I just want you, want me?
Come close to me
I need your body
I'm not sorry

But I'm still stuck on you
I'm still stuck on you
Ooh, Ooh

She throwing up dubs screaming West Side
I got a Cali king you can fit just right
Pick cars depending on what's the best drive
Give you the keys
Let you test drive
Top floor with the suite sound great
Looking out the window over the Tri-state
She come mad early and leave mad late
And I ain't eating at the table
Don't need no plates
Her clothes on the bedroom floor

We're not even in the bedroom no more
I get a text message in the mom'
Like daddy, where you headed, do me like that

But I'm still stuck on you
I'm still stuck on you
Ooh, Ooh
