

Symphony

DJ Antoine

These are the nights
Our happy ever after
And these city lights
Will capture our laughter
And this is my life
It won't come after
I want this forever
This moment will never die
Just like a symphony
You're coming back to me
Tonight
Just like a symphony
You can play for me tonight

She wanna know where the hell I've been
I'm tryin' to pour up and settle in
The loud that she rolled smelled like peppermint
That's when I told her I need her like medicine
I'm sippin' codeine I can't fall asleep
I turn on my phone look who's callin' me
You already know it's a money ting
Yeah shit it better be
I put these bands in the safe
I'm about to skate on a plane
Lord knows
I've seen things
Got me movin' away
Trust me I'm not tryin' to deal with the pain
I do what I gotta do
I make what I gotta make
Yeah they try to keep me down to the ground
But I'm trying to levitate

These are the nights
Our happy ever after
And these city lights
Will capture our laughter
And this is my life
It won't come after
I want this forever
This moment will never die
Just like a symphony
You're coming back to me
Tonight
Just like a symphony
You can play for me tonight

Where you been late again
Look at the time it's irrelevant
Sent the text saw the pics
Look at my eyes why you lying
Living in sin juice with the gin
Had my cup filled to the rim
Again and again she brought a friend
They're wearing nothing but skin

All I know is you looking for it

All I know is you gonna get it
All I know is you looking for it
All I know is you gonna get it

These are the nights
Our happy ever after
And these city lights
Will capture our laughter
And this is my life
It won't come after
I want this forever
This moment will never die
Just like a symphony
You're coming back to me
Tonight
Just like a symphony
You can play for me tonight

Girl I know you into me
Drive Porsches out in Italy
Chop the top off like a guillotine
Life is Gucci but it's killing me
Stretch the work out like a limousine
I'm 'bout to blow
Is u litorwut
Girl you're like a symphony
I want to know
Keep it real with you
Is you gonna keep it real with me
Yeah
I don't see nothing wrong oh no
When she twerk and she drop it down so low
The way we pop them bottles for so long
In the studio she know the whole song
Take your chick from Switzerland to Florida
Killed the kitty now she need a coroner
Made a killin' dealin' with the foreigners
I'm so lit I forgot what the chorus was
