

## Youth of Tomorrow

**DJ Antoine**

It was written in the stars  
Now if s written in our hearts  
And our memories will live forever on  
From the barrel of a gun we're the children of the sun  
We are the ones to follow  
We're the youth of tomorrow

I remember what a good friend said to me  
He said don't let your mind tell your heart what to be  
Run wild with the wolves  
Bear your teeth  
Let your soul light up like a burning tree  
Just follow the smoke  
To where it goes  
Never lose hope  
And never grow old

It was written in the stars  
Now if s written in our hearts  
And our memories will live forever on  
From the barrel of a gun we're the children of the sun  
We are the ones to follow  
We're the youth of tomorrow

Day break and we're still drunk from the night  
We still here still stoking up the fire  
Just follow the smoke  
To where it goes  
Never lose hope  
And never grow old

It was written in the stars  
Now if s written in our hearts  
And our memories will live forever on  
From the barrel of a gun we're the children of the sun  
We are the ones to follow  
We're the youth of tomorrow
