

# Dead Or Alive

DJ Bobo

I'm staring at this world and I see  
We're destroying our planet, how could this be  
A nightmare, calling emergency  
We are killing our world it's a misery  
Send an SOS from your heart  
Rise up to the sky, let us make a start  
Together side by side we are strong  
We got to wake up, come along,  
Got to wake up, come along

Dead or alive, dead or alive  
Is there a chance, can we survive  
Are we dead or alive, dead or alive  
Is there a chance we can survive

What happens to our planet today  
We are closing our eyes and we fade to gray  
I shiver to the bones whe I see  
We are loosing our faith to insanity  
Stand up to take your chance, fight your fear  
It's easy to complain, don't you drown in tears  
Believe in yourself, make a change  
We got to wake up, come along  
Got to wake up, come along

I wanna know, are we dead or alive  
I don't know, is there a chance to survive  
I don't know, are we dead or alive  
We've got to make a change  
Send an SOS from your heart  
Send an SOS from your soul  
Rise up to the sky, make a start  
I don't know, if we are dead or alive
