

# Everything Has Changed

DJ Bobo

Everything has changed, since you've been gone forever  
All I want is you to be by my side  
Everything has changed, since you've been gone forever  
All I want is you to be by my side  
Feel the heat, I'm burning deep inside and feel the beat of my heart  
Feel the heat, I'm burning deep inside and feel the beat  
I know that everything has changed

It's the groove that makes you wonder  
I mean the beat and the bass like thunder  
I make you sweat, I make you wet  
This is my mission, that I've got to get  
That's great, like boom boom boom  
Bring the sound and the noise to the room  
Get on the floor now don't be lazy  
Get on the floor now let's go crazy  
People in the place, let's talk about  
So get on the floor and turn it out  
Everything has changed, it goes round and round  
You loose control when you hear my sound  
Everything has changed, it goes up and down  
To the rythm of the night this is the sound  
Dance to the house and you won't let go  
Like a symphony in stereo

Everything has changed, since you've been gone forever  
All I want is you to be by my side  
Everything has changed, since you've been gone forever  
All I want is you to be by my side  
Feel the heat, I'm burning deep inside and feel the beat of my heart  
Feel the heat, I'm burning deep inside and feel the beat  
I know that everything has changed

People everywhere, they sing, their hair  
They shake it in the air, oh yeah  
It's music from my mind  
And the bass will let it shine  
You've got no time to realise my rhyme  
The lyrics are fine what's mine is mine  
Let it shine, like a sign  
It's a sign of the time when you're feelin' fine

Everything has changed, since you've been gone forever  
All I want is you to be by my side  
Everything has changed, since you've been gone forever  
All I want is you to be by my side  
Feel the heat, i'm burning deep inside and feel the beat of my heart  
Feel the heat, I'm burning deep inside and feel the beat  
I know that everything has changed

People in the place, let's talk about  
So get on the floor and turn it out  
Everything has changed, it goes round and round  
You loose control when you hear my sound  
Everything has changed, it goes up and down  
To the rythm of the night this is the sound  
Dance to the house and you won't let go

Like a symphony in stereo

Everything has changed, since you've been gone forever

All I want is you to be by my side

Everything has changed, since you've been gone forever

All I want is you to be by my side

Feel the heat, i'm burning deep inside and feel the beat of my heart

Feel the heat, I'm burning deep inside and feel the beat

I know that everything has changed
