

Fire & Ice

DJ Bobo

In the deep of the night
Where the shadows chase each ray of light
You're the flame burning bright by my side
In the cold diamond sky
Where we crystallise on the pale moon ice
You and I, 'cause tonight we collide

Every touch electrifies
In the night on the pale moon skies
With every smile you set me free
Like whisper love and symphony
You lift me up beyond the light
Two hearts, one rhythm synchronised
Like fire and ice when we collide

We are like fire and ice
Let the universe collide
We are like fire and ice
Burning in the rhythm of the night
Whoa oh oh oh oh whoa oh oh oh
We are like fire and ice
Whoa oh whoa oh oh oh
Oh, like fire and ice

In a world so divide
Where the truth is fading out of sight
Let the stars be our guide side by side

If we break this spell a new world rises
As strong as it could be
A kingdom without sacrifices
Just for you and me

We are like fire and ice
Let the universe collide
We are like fire and ice
Burning in the rhythm of the night
Whoa oh oh oh oh whoa oh oh oh
We are like fire and ice
Whoa oh whoa oh oh oh
Oh yeah
We are like fire and ice
Whoa oh whoa oh oh oh
Oh, like fire and ice
