

# Give Peace a Chance

DJ Bobo

I have a dream, I have a vision  
You may say it's an illusion  
Together we are strong  
Let's give peace a chance  
Tell me what will be tomorrow  
Will we find a road to follow  
I still believe in love  
Let's give peace a chance

Now I feel like I'm stranded  
But I'm not the only one  
Light the fire and give peace a chance  
It's a wonderful world  
Let's see it, believe in it  
For tomorrow, let's give peace a chance

I tell you, now wake up or be swayed by my dream now  
A world of hope and peace, I'm trying anyhow  
Most of us only care about money making  
And that's for real - the thought of it is aching  
Facing everyone with an open heart  
We better going to start before our worlds apart  
No matter where you from - no matter who you are  
No matter what you do - the pain has gone to far  
There's a falling star, please achieve my dream  
Peace for the world and try and grow your self-esteem  
To resort to violence means hate and frustration  
Coming back stronger then your own imagination  
Power and money shouldn't be the temptation  
But shouldn't be love our best motivation  
I still can't believe this is true, right here, right now - I haven't got a clue

Whatever happens in your life you've got another chance  
To advance yourself, grow and give a better glance  
Tolerance between religions and races  
Let's talk about respect between different faces  
We all are the same at the end of the day  
Rich or poor we have to fade away  
And if you're black or white - doesn't matter anyway  
Hindu, Muslims, Christians, they all just pray  
For freedom and a world of peace and harmony  
Lord I'm so confused about this living human tragedy  
Tell me what is wrong, - tell me what is right  
Tell me why are people still suffering and fight  
People hear me - it's time to wake up and love  
Before it's too late let us all free the dove  
I still can't believe this is true, right here, right now - I haven't got a clue

Is this what life was meant to be  
Sometimes we lose reality  
But then I'm reaching for the stars  
And I know, and I know
