

I Love My Radio

DJ Bobo

Driving in my car, I'm listening to my radio
Time is running fast, I feel like 20 years ago
Dancing in the street was fun, the limit was the sky
Baby, baby, babe, I thought I'd never gonna die
Dreaming with my music on the radio on and on
Dancing wild and crazy to the heartbeat of the drum
The music of my life when I was young, I was a teen
Tell me, tell me wheel of fortune isn't it a dream ?

In my mind there are thousands of memories
I laughed and cried through the night
Every moment in history has its song
For the good and the bad days of life

I love my radio, radio
And listen to the songs of my life 20 years ago
I love my radio, radio
And listen to the songs of my life 20 years ago

Ohohohohohoh. Ohohohohohoh
Ohohohohohoh. Ohohohohohoh

Forever young that's what I am, I travel back in time
You give me magic moments, yeah you are one of a kind
Music is my passion, I can't live without these songs
Freaky radio gaga drive me crazy all night long
The soundtrack of my life is like a rollercoaster ride
Up and down and round and round a kick from side to side
You make me proud, you make me laugh, you make me wanna cry
Radio, radio, radio, take me home and make me fly

In my mind there are thousands of memories
I laughed and cried through the night
Every moment in history has its song
For the good and the bad days of life
