

I'm Living To Love You

DJ Bobo

I wanna know if dreams can come true, ohohoho
I'm ready to start it with you, ohohoho
Thought I never know how deep love is, ohohoho
You're the only one I sure miss, ohohoho

Everytime seeing you walk away
You drive me crazy, so crazy, please stay
Come baby, hold me tight, I swear it's true
I'm living to love you, love you, love you

I'm living to love you, oh it's crazy but true
I'm living to love you, no one can save me but you
I'm living to love you, till the end of my time
I'm living to love you, love you, love you, love you
I'm living to love you, love you, love you, love you

Will you come to the fantasy I got, ohohoho
I'm ready to run, if you're not, ohohoho
And here is the promise I can keep, ohohoho
I won't let you down in time of need, ohohoho

And if I touch you to me it's a thrill
You've got this magic, I swear it's for real
I know it's crazy, so crazy but true
I'm living to love you, love you, love you

I'm living to love you, oh it's crazy but true
I'm living to love you, no one can save me but you
I'm living to love you, till the end of my time
I'm living to love you, love you, love you, love you
I'm living to love you, love you, love you, love you

Oh I was born to fall in love with you
I know it's crazy girl, so crazy but true
We were born to fall in love
Yes were born to fall in love

I'm living to love you, oh it's crazy but true
I'm living to love you, no one can save me but you
I'm living to love you, till the end of my time
I'm living to love you, love you, love you, love you
I'm living to love you, love you, love you, love you

I'm living to love you, oh it's crazy but true
I'm living to love you, no one can save me but you
I'm living to love you, till the end of my time
I'm living to love you, love you, love you, love you
I'm living to love you, love you, love you, love you
I'm living to love you
