

# Let Me Feel the Love

DJ Bobo

Let me feel the love of my lifetime  
All that I am dreaming of  
Stay with me and show me all your secrets  
All that I am dreaming of

I cannot live  
Cannot live without your love  
I'm flying high  
And I cannot get enough  
Let me feel your love

A brandnew day, a brandnew show  
Ready for soundcheck, here we go  
We're in a hurry, there is no time  
I check the mic check-a-de-check the rhyme

A journalist of a magazine  
Hey BoBo, tell me what's your dream  
Do you wanna be famous, do you wanna be rich  
What you gonna do when someone queers your pitch

Light goes off, no more waiting  
Fans are screaming, celebrating  
The crowd is looking like a waving ocean  
Now the beginning of 'World In Motion'

The stage is trembling, the vibes are okay  
Time for the show, let the music play  
Music I can't get enough  
So let me feel your love

Another night, another place  
I feel the rhythm, feel the bass  
Dancing, singing, my world is the stage  
I feel like a lion leaving his cage

Happy people everywhere  
Music's hot so they don't care  
Don't care about rumours, don't care about lies  
Care about a friend, no compromise

I say it loud without no doubt  
I'm proud of the crowd and that's about  
About a beat that spins you around  
Get up, stand up, move to the sound

The last high five, hip hop hooray  
Ready for the show, let the music play  
Your support is taking me high above  
So let me feel your love
