

## Party Delight

DJ Bobo

It's Saturday, it's Saturday night  
We go to dance just to feel alright  
Let's come together and stay up late  
Release the pressure and celebrate  
There's gonna be a party going on  
You know the night has just begun  
Let the music blow your mind  
And leave your troubles all behind

It's really getting hot tonight  
We'll dance into the morning light  
Get up stand up, don't stop the party delight  
It's really getting hot tonight  
We'll dance into the morning light  
Get up stand up, don't stop the party delight

We feel the beat, you need to move on up  
The heat is on, so give me all you got  
Just come on down, down to funky town  
This is the time and we felling fine, yeah  
Everybody see, people jammin' on  
You know the night has just begun  
Let the music blow your mind  
And leave your troubles all behind

It's really getting hot tonight  
We'll dance into the morning light  
Get up stand up, don't stop the party delight  
It's really getting hot tonight  
We'll dance into the morning light  
Get up stand up, don't stop the party delight
