

Try Try Try

DJ Bobo

You gotta try, don't stop
From the bottom, the bottom of your heart
You gotta try, don't give up
From the bottom, the bottom of your heart

You gotta try, don't stop
To see you drowning is tearin' up my heart
You gotta try, don't give up
From the bottom, the bottom of your heart
Don't give up

You can make it to the top
Climb a mountain high
You can be a superstar
Try try try
You can find your destiny
The meaning of your life
Everything you have to do
Try try try
You can make your dreams come true
They can come alive
Close your eyes and let it go
Try try try
Together we can change the world
No need to cry
This could be a better place
Try try try

You can find the one to love
Don't be too shy
Never ever lose your heart
Try try try
You can dive the deepest sea
You can touch the sky
You can make it happen if you
Try try try
You can be so full of pride
Hold your head up high
You can be a hero
If you try try try
When you're in the darkest night
Don't tell a lie
There will be a guiding light
Try try try
