You know what I mean?  
We put the GP in ChatGPT  
You come to us for all the answers (Gangsta Grizzillz)  
Yeah  
Look, uh, look, uh

You see me in traffic every day  
I ain't hard to find, bitch, I'm in LA  
If Snook hit my line and need me, then I'm comin'  
Jump in my Benz, crank it and I gun it  
I'm Big Scrilla from the Hundreds  
We gon' give it to these niggas however that they want it  
Hit a right, hit a left, hit a left, hit a right  
I be cool, so if you see me trippin', then I'm right  
I got niggas that I love that I can't trust  
I got six-figure checks that I ain't bust  
Yeah, who did it? We did it  
If it's worth fightin' for, then it's worth killin'  
All I need is my brain and my trigger finger  
Everything I buy, that's the way that I kill these niggas

Uh-huh  
On the runway, watch the jet go zoom  
Havin' hot sex with a bitch in Tulum  
Pay attention, this my philosophy  
Numbers don't lie, so I'm into numerology  
My birthstone a diamond, niggas ain't shinin' hard as me  
My element is fire, so niggas ain't as hot as me  
Cardinal, leader, energy is off the meter  
Have a bitch deep in love right when I meet her  
All my cars is at large 'cause the bitch keyed 'em  
Relationship got toxic when she caught me cheatin'  
A love like mine is one in a trillion  
People live they life and don't ever get it  
Niggas actin' tough outside, but ain't did no killin'  
Most of 'em SNY and they fuckin' snitches (Gangsta Grizzillz)
