

Catch Me

DJ Encore

If you gaze a while
You witness no more sorry
It's a thousand miles
To find the sweet tomorrow
Stay oh we could dance in fields of wonder
Through the rain and we could hold on to each other
And I swear, when I look down
You were standing there angels all around waiting

Catch me my wings have broken
I find myself too high
I hear the stars have spoken
And life is rushing by like a bird

Without you I'm like a distant planet
Near the moon it's easy just to vanish

But I swear when I look down
You were standing there angels all around waiting

Catch me my wings have broken
I find myself too high
I hear the stars have spoken
And life is rushing by

Catch me you stop me falling
I nearly touch the sky
Only the rain is calling
And I no longer fly like a bird

But a bird can fly to freedom
I am lost without a reason
Like a dream that's now been taken
I don't know if I can make it
