

Nobody Wants to Try

DJ Encore

Nobody wants to try
Nobody wants to try

Oprah's on the talk show
Seeing everybody knows' love needs nurturing
Otherwise it won't grow
Books flying off the ship
We craving selfing
Anything that we get
Searching for the answers yet

Nobody wants to try
Nobody wants to try
Nobody wants to try anymore

We close our eyes and leave love behind
We walk away-way before its time
How can love last forever?
Ohhhoooooh

Then there is you and me
Off to weekly therapy
Trying to communicate
Suddenly I hear you say
"I just don't think it's working out
It's time to talk 'bout who is gonna tells the kids"
Can believe it's come to this

We close our eyes and leave love behind
We walk away-way before its time
How can love last forever?
Ohhhoooooh

Nobody wants to try
Nobody wants to try
Nobody wants to try anymore
