

Rain

DJ Muggs

Baby, don't look suprised
You got your mothers eyes
Why are you with me
With the rain here
It's here to cry
You want paradise
God of??
With the rain here
That falls the skys
Until your mine
Just good advice
The way you love me
Take the pain
The turning over to put your hands
It wasn't always safe to say
It took me long way
But now you are always in the rain
Always in the rain
It wasn't always safe to say
But now you are always in the rain
Stranger what's with me
Hope you are feeling fine
This June day
I said stranger didn't need to fight
Take out a blind
Never miss a thing
Did you ever think about me
It's a mystery??????
If we stay here
Take my breath away
Don't feel afraid
The way you love me
Take the pain
The drowning over and
Put your hands
It wasn't always safe to say
I took me long way
But now you are always in the rain

(Always in the rain)
(Always in the rain)
(Always in the rain)
It wasn't always safe to say
But now you are always in the rain
(Always in the rain)
(Always in the rain)
(Always in the rain)
It wasn't always safe to say
But now you are always in the rain
(Always in the rain)
(Always in the rain)
(Always in the rain)
It wasn't always safe to say
But now you are always in the rain
(Always in the rain)
(Always in the rain)
(Always in the rain)

It wasn't always safe to say
But now you are always in the rain
(Always in the rain)
(Always in the rain)
(Always in the rain)
It wasn't always safe to say
And now you are always in the rain
(Always in the rain)
It wasn't always safe to say
And now you are always in the rain
(Always in the rain)
It wasn't always safe to say
And now you are always in the rain
(Always in the rain)
