The only one that can make you go higher

Never gwarn catch me, never sleep, come proper

Blood, fire, thicker than rough tire

Yo
Blood and fire, the new scripture
M. I, non higher, truth bitter

The dude's richer, the crew bigger, recoup quicker
For new spitters, I'm the youth teacher

And Neptune said let's make a new classic
Let's do you and jags one track, too drastic
Rappers ain't hard no more, dem dudes flaccid
They're too basic, we need some new acid

I said I agree Neptune, this gon be the best tune
This gon shut the industry down from now to next June
This rappers can't survive they gon' need some rescuing
But Neptune, we gon be getting our jet soon
Jesse Jaga brother

On the instrumental,
Madder with his brother Jaga
Number one lyrical ragga rapper ah
Neptune on the wheel spinning
At the same damn time this the beginning and the ending

Me say, blood and fire
Neptune, Jaga, M. I-er
Y'all know nothing come higher
Me say, y'all know we spit fire
And me say, me say

Blood and fire
Neptune, Jesse Jagz and M. I-er
And y'all know we bring, we spring fire
And y'all know nothing ever come higher
It's blood and fire

Neptune!
It's blood and fire
Neptune on the wheel spinning
At the same damn time this the beginning and the ending 'cause it's
