

Mine

DJ Neptune

Omo you be my night and day
And if you give me chance
I go fit explain
Yeah yeah
Make I teach you mathematics
Make we calculate
And from the bed to the couch
I cannot dictate

Say you ouu
Can I have that [?]
Yeah, put your body on me
I wanna tap that
Yeah
Say you ouu
Can I touch that [?]
Put that booty on me
Give me a lap dance
(Let's go)

But I know many people
They wanna toast you
I know
They wanna call you
But you're mine

But you're mine
But you're mine
But you're mine
But you're mine

But you're mine
But you're mine
But you're mine
You're all mine

I just wanna dance
On the light
We can take a ride
Through the night
You and I

I just wanna dance
On the light
We can take a ride
Through the night
You and I

But I know many people
They wanna toast you
I know
They wanna call you
But you're mine

But you're mine
But you're mine
But you're mine

But you're mine

But you're mine

But you're mine

But you're mine
