

# Key to My Castle

DJ Sammy

The first time I saw you  
It seemed to be an ordinary day  
In my mind painting pictures  
of where it's going to lead us to someday  
Take my time, be patient  
take the pictures off the wall  
For this moment I'll stay hypnotized with you  
no need to call

tell me could this be another  
hopeless try to give it up to you  
tell me if I'm wrong  
to see a miracle come true  
You hold the key to my castle in your hand,  
Just try to open the door to understand (2x)

You keep me up waiting  
days go by and still I'm not afraid  
there's some unaccountable reasons  
time slowly seems to fade  
take your time, be patient  
take my gestures are for real  
this very moment is your choice to  
clarify your deal

tell me could this be another  
hopeless try to give it up to you  
tell me if I'm wrong  
to see a miracle come true  
You hold the key to my castle in your hand,  
Just try to open the door to understand.  
You hold the key to my castle in your hand,  
Just try to open up your mind and understand

and understand

You found the reason for love inside this,  
place I have found...  
if you dare, if you follow me.

You hold the key to my castle in your hand.

You hold the key to my castle in your hand,  
just try to open up your mind and understand,  
and understand.

And understand...
