From listening to records i just knew what to do  
I mainly taught myself  
And, you know, i did pretty well  
Except there were a few mistakes  
But um, that i made, uh  
That i've just recently cleared up

And i'd like to just continue to be able to express myself  
As best as i can with this instrument  
And i feel like i have a lot of work to do  
Still, i'm a student - of the drums  
And i'm also a teacher of the drums too

What makes cancer tenacious?

The moon rules the fluids  
Including the inner juices of human beings  
That which assimilates and feeds the body  
So the crab feeds his astral plane  
Assimilating and distributing all he receives  
Slowly, until it becomes apart of you

I can fly through the strangest land  
Black satin starry eyes, brown smiling face...

And i would like to able to continue  
To let what is inside of me  
Which is, which comes from all the music that i hear  
I would like for that to come out  
And it's like, it's not really me that's coming  
The music's coming through me

The music's coming through me
