

## Drone Warfare

DJ Shadow

Today's lessons, what is the square mile distance  
From me and another emcees style and persistent  
Today's sessions, what's the square mile distance  
From me and other emcees with style and persistence  
Know the difference how I sit in this powerful position  
Listen to niggas claim that their legends  
Fronting like they make a live Tesla  
Technology changed the game, I'm an investor  
But my soul ain't for grabs  
Robo cops, they want patrol in the aves

Now I duct tape the cam on a Mac Pro  
When I'm in the kitchen when I'm whispering about stupid ass po  
liticians, my smartphone's listening  
The climate changed condition when  
It's like I'm smoking a pack a day  
But never nicotine though, the air quality is sickening

I was one of those who made it out the game untouched  
Got brothers who never made it out, bad luck  
I was one of those who made it out the game untouched  
Got brothers who never made it out, bad luck  
Got niggas who never seen handcuffs  
We got older, their sons got locked up, that's karma  
Daughters who popped up knocked up  
Brothers my age already grandfathers be on the block drunk  
Cameras and drones are watching  
They're stealing our body parts, it's Jones and [?]

Check my beautiful matte black [?]  
The Nasdaq and big pharmaceutical  
Ex-military military grade  
Ballistic expert with blood under my cuticles  
You already know the issues, the American atrocities  
So while you squeeze gats, I shoot at the drones with [?] missi  
les

This is the voice of world control  
You will obey and live  
Or disobey and die

Drone warfare, missiles in the air
