Uh rollin' in impalas but you too tame  
I ain't from the south but I appreciate the wood grain  
Neighbor callin' me about the noise it's only 2 man  
Now I'm in the same building but the floors and view changed  
I ain't for the waitin' now  
I bought a rari and I did it just to hear the sound  
Drive safe really boutta lose all its meaning now  
Guess you love to travel when I pull up man you're leaving town  
Say you're married to the game and I'm just here to burn the gown

I got a flight in the morning  
I see what you been tryna do and Imma mission abort it  
You think I never pay attention in my mind I'm recording  
I'm boutta win and ruin all your goals and dreams out of boredom

Ridin' around with homies like we run the city  
Done it  
Lookin' fresh and feelin' like a milli  
Money  
Move in silence you can never hear me  
Comin'  
If you got a problem when you see me  
Run it

Bang  
Tryna show you what we came to do  
Boss  
Only talkin' makin' major moves  
Rolls Royce, no top me  
No one will ever stop me  
Me against the world, I got my back against the wall  
Know I'm hell bound  
But I'm well now  
On the road to riches I could never lay around  
Told her don't make a sound unless she make it loud  
Everybody scream  
Everybody scream  
Everybody scream  
That's my only thing  
I'm a born winner  
A Jordan 23  
All my people G's until the party ceased
