I put a rollie on your dash  
Only do it cause you're worth it  
Got me spending all my cash  
Make it rain like your birthday  
Baby mi jor je ka dele  
Soro soke je kin de be  
Skin to skin we be reckless  
Give you loving in excess  
Oma, this your body o  
I just can't ignore  
I knew when I saw you  
I want to explore

Specially designed  
Your body is divine  
I no want wait tonight  
I'll be way too high  
I'll be way too high  
All the way cloud 9  
I'll be way too high  
All the way cloud 9

Take the lead I will follow  
Speed it up like motor  
Spice it up like rodo  
Make we chill no photos

May we rise never fall  
Giddem the vibe no notice
