

Come Down

Django Django

Your words make sure I'm so hypnotizing
I must imagine this thought
Pick myself from off the ceiling
And try to get my born across

Melting in the dreams about you
No need to comprehend
I never had a feeling like this
And I hope it never ends

I don't want to come down
I don't want to come down
Won't get the crowd
I don't want to come down

You begin in sole belongings
Some things will stay the same
Dancing to a broken rhythm
I only have myself to play

Speeding on the end of a sideways
We shift throughout the state
I never had a feeling like this
And I hope you can relate

I don't want to come down
I don't want to come down
Won't get the crowd
I don't want to come down

I don't want to come down
I don't want to come down
Won't get the crowd
I don't want to come down
