

## Dead Machine

Django Django

Dead in the night but I can see you eye to eye  
Streamlined cars in tangerine street lights  
All these electric eyes I've tried to hide from you  
Lost in time we think it over

Like machines  
Plug me in I dream  
Feeling like a dead machine  
Plug me in so I can dream

Fitness and wealth can lead the way distract my mind  
Billboards streaming out across our lives  
Love should be free no need for me to wait for you  
Orchestrated doubt grows louder

Like machines  
Plug me in I dream  
Feeling like a dead machine  
Plug me in so I can dream

Turn on the screens and leave behind reality  
Custom clothes and mobile phones we need  
I can be who I want to be and so can you  
Give me something false to lean on

Like machines  
Plug me in I dream  
Feeling like a dead machine  
Plug me in so I can dream

Plug me in so I can dream

Plug me in so I can dream
