Fountains

Django Django

See, they're making a fountain
Tell the truth that you'll never know
We were hiding all we had
In the hope that it'll never show
Though the daytime can't decide
Let the nighttime show the way
We've been trying to break on out
But if only you could

See, never mind you and me
Watching the world turn endlessly
Taking me where I wanna be
But see, it's bigger than you and me
Watching the world turn endlessly
Follow along and step with me

Keep the only time we had
Take a deal that we never made
Always hanging on your words
Watching over every game we play
Though the nighttime can't decide
Let the daytime show the way
We've been trying to break on out
But if only you could

See, never mind you and me
Watching the world turn endlessly
Taking me where I wanna be
But see, it's bigger than you and me
Watching the world turn endlessly
Follow along and step with me

See, never mind you and me
Watching the world turn endlessly
Taking me where I wanna be
But see, it's bigger than you and me
Watching the world turn endlessly
Follow along and step with me
