

Swimming at Night

Django Django

Dropping off the grid
Gonna occupy the sidelines
Rolling out the city
Now we're finished with the highlight
Same line every time from the book
You give me the same line every time

Seeing that much river
As it flows into the deep blue
Jumping off together
'Cause it's only really us two
Sinking ever deeper
'Cause I never really tried to break through
To you

Swimming at night
Fall underwater
We'll be living with life
Forms underwater
We'll be swimming at night
Fall underwater
We'll be living with life

Swimming at night
Fall underwater
We'll be living with life
Forms underwater
We'll be swimming at night
Fall underwater
We'll be living with life

Heaven's all around
But we're living out the same lie
Call another number
'Cause the conversation's run dry
Same line every time from the book
You give me the same line every time

Current getting stronger
Stormy water look again now
Hold our breath together
And we'll try to make it somehow
Sinking ever deeper
'Cause I never really tried to stay true
To you

Swimming at night
Fall underwater
We'll be living with life
Forms underwater
We'll be swimming at night
Fall underwater
We'll be living with life

Swimming at night
Fall underwater
We'll be living with life

Forms underwater
We'll be swimming at night
Fall underwater
We'll be living with life
