

## Wishbone

Django Django

Ah, back in the beginning  
Took my heart through robbing and stealing  
Played it cool, just followed the feeling  
Rolled along

We're trying, we're losing  
But what's this thing we keep on pursuing?  
Holding out for what we've been doing  
All along

Ah, let's give it one more chance  
We're both not innocent  
I know we can't advance  
I was attacked and you would be coming back

Lock up the problem, bolt the door  
It's too early for us both to know  
Call up your pop before you go  
I was attacked and you would be coming back

Ah, discover the meaning  
Do what we can, kept hitting the ceiling  
Let's open up and we'll be freewheeling  
All along

Let's give it one more chance  
We're both not innocent  
I know we can't advance  
I was attacked and you would be coming back

Lock up the problem, bolt the door  
It's too early for us both to know  
Call up your pop before you go  
I was attacked and you would be coming back

Lock up my problems, bolt the door  
It's too early for us both to know  
Call up your pop before you go  
I was attacked and you would be coming back  
Lock up my problems, bolt the door  
It's too early for us both to know  
Call up your pop before you go  
I was attacked and you would be coming back
