

## Amazon Farewell

Djavan

Across this line you leave us with nothing  
So you see there mister it's time to talk  
I need a room to walk  
See there's something wrong with your plan  
Stayed where I am

Across this line my people been living  
For a whole lot longer than you walk there  
And from what we can tell of your customs mister  
Forgive me for saying  
You got a lot to learn  
Before you can say  
We got to live your way

Across this line you leave us with nothing  
But I like forget hunger and pain you made  
We don't like that trade  
But aside a map in your hand  
Take a look at this land

When we are gone the story is over  
Generations suddenly swept away  
To make another gardener desert mister  
Forgive me for saying  
There's a lot to learn  
Before you can say  
We got to live your way
