

## Bird Of Paradise

Djavan

You appear on the horizon, far away  
My desire to be there with you  
Stirs the wind and fills the sails  
In the bay I drop the anchor down, swim ashore  
On the beach the coconut palms  
Jasmine, frangipane and you

Your silent eyes convince me  
I'm marooned  
We're safe inside this azure blue lagoon

I want to know you, bird of paradise  
I want to show you, all the love that I feel  
I need to touch you, bird of paradise  
I need your touch to make this fantasy real

On sea o storm is raging, far away  
And the ships - like so many toys  
Fear the wind and fight the waves  
In your arms a forgotten dream  
nothing more  
Here the sky is perfectly clear  
Evening star, the moonlight and you

Your silent eyes convince me  
I'm marooned  
We're safe inside this azure blue lagoon

I want to know you, bird of paradise  
I want to show you, all the love that I feel  
I need to touch you, bird of paradise  
I need your touch to make this fantasy real

I want to know you, bird of paradise  
I want to show you, all the love that I feel

Just you and me, a mango tree  
The bare necessities of love  
My bird of paradise, I realize  
That you were sent here from above  
You're my bird  
Of paradise  
My bird of paradise
