

Falling

DJDS

Put two shots in the air tonight
Now I'm leaving town before the light
The reaper man is coming round
I won't let him take you down

Put two shots in the air tonight
Now I'm leaving town before the light
They can't talk to you like that
Tell my folks I ain't coming back

We love faking solemn for you [x16]

We love faking solemn for you
We love faking solemn for you
Faking solemn for you
We love faking solemn for you

Put two shots in the air tonight
All my life has been a fight
Quiet baby, I've got you now
Leaving you I don't know how

You put two shots in the air tonight
All my life has been a fight
Don't let them take me from your side
From here on out, it's you and I

We love faking solemn for you [x16]

We love faking solemn for you
We love faking solemn for you
Faking solemn for you
We love faking solemn for you

I ain't 'bout to ask no more
Because this why they ain't playing nice, baby
I can't feel the breeze no more
This ain't a time to mess around
