

Enemy

Djerv

Oh, no, it's coming back to me
All the images I never wanted to see again
Again, they keep on haunting me
No way to forget the nightmare that was to be

This is my legacy
My greatest enemy is closing in
Look away
This is my love affair
Forever my despair
Closing in
Look away

Now I'm in love with her, my dark friend
Always a part of me, all that I can see
How bad can it be? Just play the game
No matter what I do it turns out the same

'Cause she will kick you down
And she will tear you apart
You're worth nothing to me
Bleed you out from the start

This is my legacy
My greatest enemy is closing in
Look away
This is my love affair
Forever my despair
Closing in
I can't die in someone else's skin
Just be myself, that's how I win
This is my legacy
My greatest enemy is closing in
Look away

You said you're never gonna leave me
My darkened heart, you wouldn't carry
Don't you have any more to say?
So hard to let you creep away

This is my legacy
My greatest enemy is closing in
Look away
This is my love affair
Forever my despair
Closing in
I can't die in someone else's skin
Just be myself, that's how I win
This is my legacy
My greatest enemy is closing in
Look away
