

Gruesome Twosome

Djerv

They had to let her fill in, deceitful words
I kissed her cold lips, need to show I deliver
I loved her endlessly, what has she done, they have to know I'm
alive
Every legend has an end

In a wooden bed, never so mislead
Oh, bravery, don't leave me so easily

I had to make my way out, there was no door
Fury remains around me, your dog, I'm sure
I used a bone, got through the lid, the mud and out
Oh, murder like yours, they won't be seeing you again

End your story, never ending mine, I'll be around and I'll be d
igging you
Bring you down to meet the evil hound, you had your time, taste
d the wine
Now it's gone
Howling wind
One less twin

Day, you'll pray, today you'll pray
The nails in place, let's do it your fine way
This was a brutal one, admire what we've done
Oh, victory, you'll go to hell with me

End your story, never ending mine, I'll be around and I'll be d
igging you
Bring you down to meet the evil hound, you had your time, taste
d the wine
Now it's gone
Howling wind
One less twin
