

Headstone

Djerv

When, when will, when will I, when are you gonna die?
Oh, got to track you down, who's got who now?

Now, now we, now we will, now I'll have a blast
Bang! That was fast, I got you
Bang! That was fast, we ain't through

I'm coming for your headstone
Bringing a crew or doing it alone
Coming for your headstone
They won't refuse, I don't dig my part on my own
We got a big one for me, head over here, new higher throne
I'm coming for your headstone

This I do, will I do, well this I do too
Oh, got to drag it home, makes my bedroom
Over the hills, fighting a guard, working it here in your backyard
Done it before, this I do well, making a bed, it's hard as hell
But I like it this way, all my trophies will stay
Gather again, all of my men, forward!

I'm coming for your headstone
Bringing a crew or doing it alone
Coming for your headstone
They won't refuse, I don't dig my part on my own
We got a big one for me, head over here, new higher throne
I'm coming for your headstone

Now I know the shame is like the fear, you only feel it once

I'm coming for your headstone
Bringing a crew or doing it alone
Coming for your headstone
They won't refuse, I don't dig my part on my own
We got a big one for me, head over here, new higher throne
I'm coming for your headstone
