Djerv

Win or die, buried alive, I killed your dog tonight, faceless  
Win or die, dig start to fry, I'll eat your dog tonight, faceless  
ss

I put my lips around the meat, a bird of evil omen's heat, too  
long I've been waiting

Win or die, eye for an eye, I'll burn your soul tonight, you won't  
see me faceless

Fear the light, a mortal combat, walk into the nest and start a  
fight

I do, I always let you in

Fear the light, a mortal combat, get the cue and go into the night,  
the night, the night...

Win or die, yeah start to cry, I'll eat you any day, headless  
Scan the crowd, fearless and proud, always ahead of you, you won't  
see me faceless

I put my lips around the meat, a bird of evil omen's heat, too  
long I've been waiting

Fear the light, a mortal combat, walk into the nest and start a  
fight

I do, I always let you in

Fear the light, a mortal combat, get the cue and go into the night,  
the night, the night...
