

## (We Don't) Hang No More

Djerv

So why, would I run when I just die tired  
All you're doing is fueling the fire  
I need a black eye, I need to bleed  
For everyone to see how it feels

We would always be as one, had it all  
Help me, I was wrong  
Ooo, you and I know  
Come on now, ooo

We went out through different doors  
We're strangers now, we don't hang no more  
It's my time to say goodbye  
I'm finding my sound, as I'm twisting your arm  
As I'm twisting your arm

It's gone  
Birds are not singing anymore  
I pull myself up from the floor  
I got a black heart, I never bleed  
Once I'm broken I can not feel

We would always be as one, had it all  
Help me, I was wrong  
Ooo, you and I know  
Come on now, ooo

Me and you where close from the start  
How could something break us apart  
Ooo, you and I know  
Come on now, ooo

We went out through different doors  
We're strangers now, we don't hang no more  
It's my time to say goodbye  
I'm finding my sound, as I'm twisting your arm

We went out through different doors  
We're strangers now, we don't hang no more  
It's my time to say goodbye
